Memo: Letter of Reference for Fraser Valley Site Services (FVSS)

To: Whom It May Concern

Pacific Land Resource Group Inc. (PLG) is pleased to write this letter of reference for Fraser Valley Site Services (FVSS). PLG has recently completed several large contracts with FVSS in the Lower Mainland, including, a large five acre environmental offsetting project that included the physical construction of two (2) wetland features, riparian plant installation and the physical construction of restrictive covenant fencing. Additional recent collaborative works include, the maintenance of a stormwater detention pond in South Surrey, which included the construction of mulch pathways, re-contouring the storm pond boundaries and installation of an irrigation system and contract work on a new cemetery in the Township of Langley. Additional works include working with FVSS to install a chain link fence to permanently delineate the streamside protection area of a sensitive stream, in the Township of Langley. PLG also routinely engages FVSS to complete regular and routine contract work (i.e., debris removal, product sourcing etc.) with excellent results.

We find FVSS to be knowledgeable, professional and adaptable throughout the execution of each of the above referenced projects. With their blend of demonstrated construction experience, knowledge of local bylaws and environmental policies, it has been easy for PLG to regularly recommend FVSS to our Clients for support on complex development projects. We look forward to working with FVSS team again in the future.

If you would like to discuss this reference further, please contact the undersigned at [kyla@pacificlandgroup.ca](mailto:kyla@pacificlandgroup.ca) or at 604-501-1624.

Sincerely,

**Pacific Land Resource Group Inc. (PLG)**
